# SEAQUAL

What is the SEAQUAL initiative? It is an initiative that seeks to challenge the plastic pollution of our oceans by cleaning up marine litter and promoting an increasingly sustainable society.

SEAQUAL fabrics are made with polyester yarns from recycled materials from the sea, thus helping to preserve natural resources and keep the oceans clean.

With a production process with controlled traceability, most of the plastics collected are recycled and transformed into yarns based on responsible processing. The result is a fabric that meets all quality standards.
